Carré Vélizy: successful strengthening of retail component

Carré Vélizy is an 11,900 sqm mixed-use office/retail complex located in Vélizy-Villacoublay, in front of the Vélizy 2 shopping centre.

MRM has completed the restructuring and extension of one of the office buildings in Carré Vélizy to welcome the furniture chain Gautier and the restaurant Indiana Café. The arrival in 2017 of these new stores, joining the long-established Habitat and Office Dépôt shops, strengthen the retail component of the site.

Carré Vélizy benefits from a prime location in front of Vélizy 2, one of the most important shopping centers in Europe, and its future 18-room multiplex, served by the Vélizy 2 T6-tram station.

The reception of occupants of office buildings has also been strengthened, with the renovation of hallways and available office spaces, as well as outdoor spaces.

For this operation, MRM was advised by BEG (design & construction management), Property S² (Project management assistance) and Cushman & Wakefield (letting).
